Britton Bathrooms

Your bathroom has to be many things. Practical, easy to maintain and long-lasting; but also comfortable, inviting and relaxing, and reflecting your own personality, tastes and sense of style. All this in a space that can range from the intimate to the imposing. It's quite the ask - and Britton provides the answers.

Britton offers a wide range of collections for the whole bathroom including ceramics, brassware, furniture, baths, showers and accessories. The different collections allow you to spend a little more here, save a bit there, and make your budget go further.

Above all, Britton lets you create a space that looks and feels just the way you want it to. The perfect bathroom you've always imagined.

Your perfect bathroom
starts here.

Stylish ceramics that last a lifetime.

Ceramics

Visually and practically, your ceramics – the basin and toilet – are the focal points and central elements of your new bathroom.

Britton has a huge range of ceramics to suit your space, budget and the look and feel you want your bathroom to have. We have basins and WCs across our collections, giving you a wide range of styles and price points to choose from. All our ceramics are made from high-quality materials and backed by our lifetime guarantee.

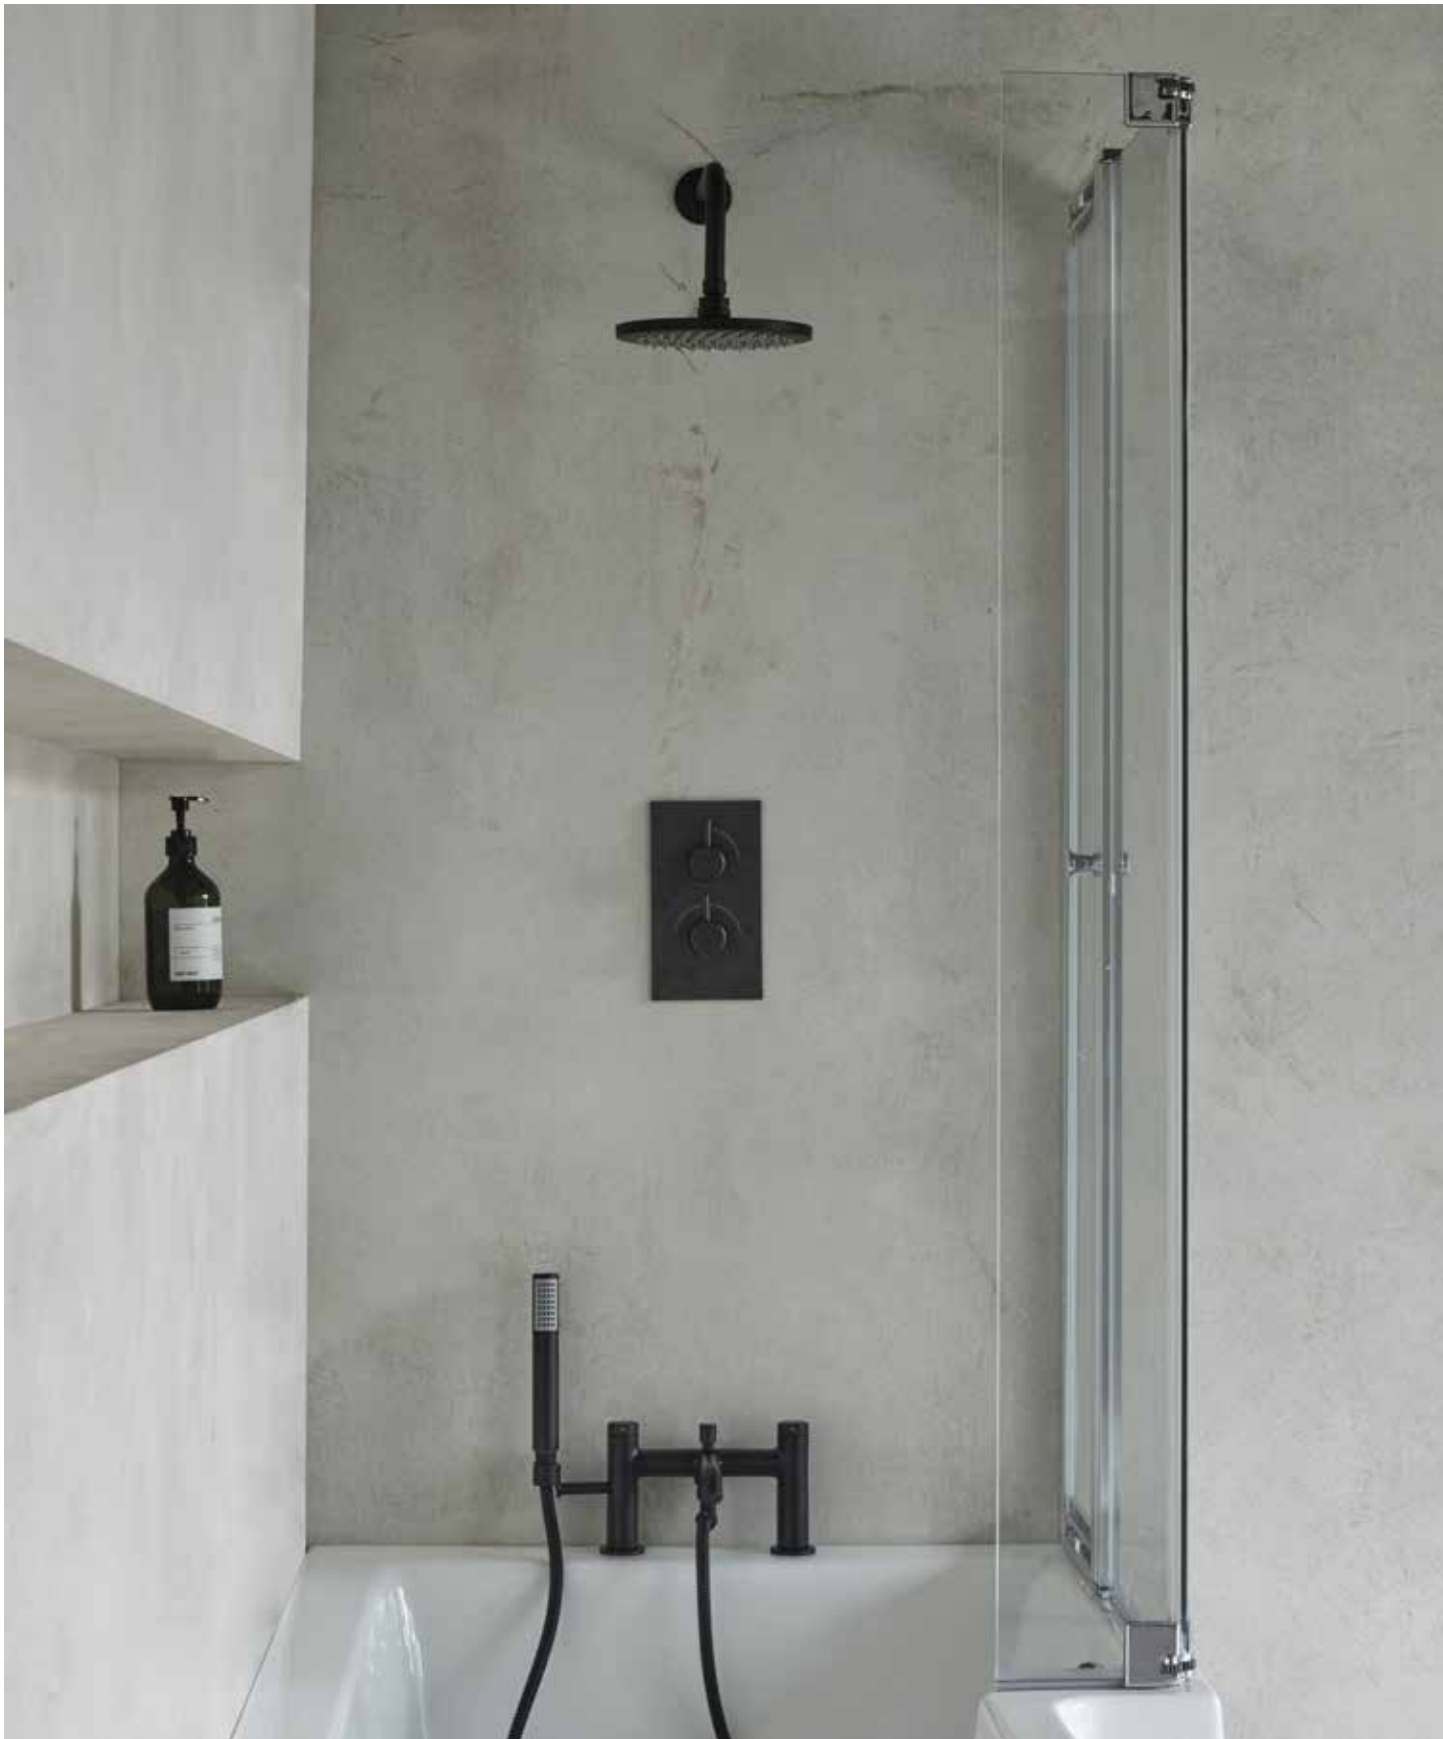

Trim 600mm basin with full pedestal. Trim close-coupled WC and cistern with soft-close seat.

Trim is a recent addition to our Britton ceramics range. With its ultra-thin edges, it's highly contemporary and on-trend, while its minimalist looks and neat profiles make it suitable for bathrooms of all sizes.

Brassware

Brassware is a key choice in your bathroom scheme. Aesthetically, it has to work with your ceramics, furniture and accessories as part of the overall look. Functionally, it has to perform reliably, safely and efficiently, day after day, for many years to come. With Britton, you can be confident your chosen brassware will meet both criteria perfectly.

Our Britton brassware ranges can be mixed-and-matched with our other collections, to achieve your desired effect. You can pair your chosen brassware with any of our basins and baths, then add matching accessories for a final finishing touch. All Britton brassware is made to exacting standards from top quality materials and our Hoxton collection is approved by the Water Regulations Advisory Scheme (WRAS) for water efficiency and long-term performance.

Brassware with style and performance.

The Frame Collection includes everything you need to give your bathroom a sleek, minimal, contemporary look. Frame stands and matching brassware remain a popular, on-trend choice for basins; and our selection of Hoxton valves, hoses, handsets and shower heads allow you to create a shower to suit your space and preferences.

No two bathrooms are the same, so Britton lets you choose the ceramics to suit the particular space you're working with. All our ceramics are backed by our lifetime guarantee for your peace of mind.

Perfect in every detail

In your bathroom, as in life, it's often the little things that make the biggest difference. Details like towel rings, shelves, even hooks and toilet-roll holders, all contribute to your bathroom's overall look, feel and everyday practicality.

You can choose from a range of accessories in our three signature finishes - Chrome, Brushed Brass and Matt Black - to match or contrast with your brassware, furniture handles and other elements.

Ceramic toilets

Our ceramic WCs are all ideally suited to contemporary bathrooms. Depending on your space and the style you're looking for, you can choose from close-coupled, back-to-wall or wall-hung models, all equipped, with water-saving dual-flush mechanisms.

nanoGLAZE
ceramic that stays cleaner

Selected WCs feature a unique stay-clean NANO Glaze coating, creating an ultra-smooth surface, six times smoother than standard ceramic.

Soft-close & quick release seats

All of our seats match our Britton toilets and are soft-close for quieter operation and quick release for easier cleaning.

Rimless toilet design

Our Curve2, Sphere, Milan and Shoreditch WC ranges have a rimless design, ensuring your toilet is super simple to clean and maintain.

Cleargreen baths

The bath is the largest single item in your bathroom, so it has to be right. Britton offers over 30 to choose from, in a wide range of designs, shapes and sizes to suit your space perfectly - all made in our exclusive high-strength Cleargreen format.

Quality

All of our baths utilise high quality materials throughout including:

- Only 3mm LUCITE™ acrylic sheet for the bath moulding, a leading material which is naturally slip-resistant
- Floor-mounted leg fixings which provide a stable base and are adjustable to cope with uneven floors
- A strong baseboard made of recycled material which is fully encapsulated into the bath
- All British and European performance standards when installed in line with our instructions
- A long guarantee of 10 years for Cleargreen baths

Range

We classify our baths into their design styles:

Single ended baths have the backrest at one end and the taps opposite.

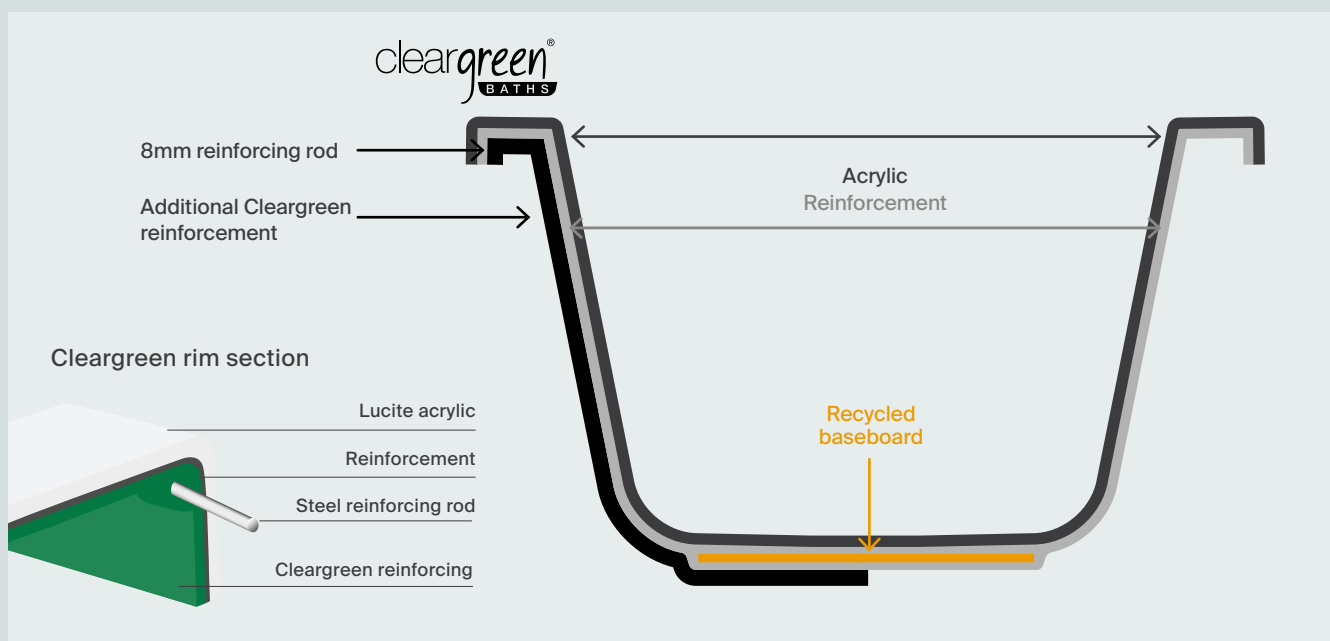

Double ended baths have a backrest at both ends with the taps in the centre of the long side.

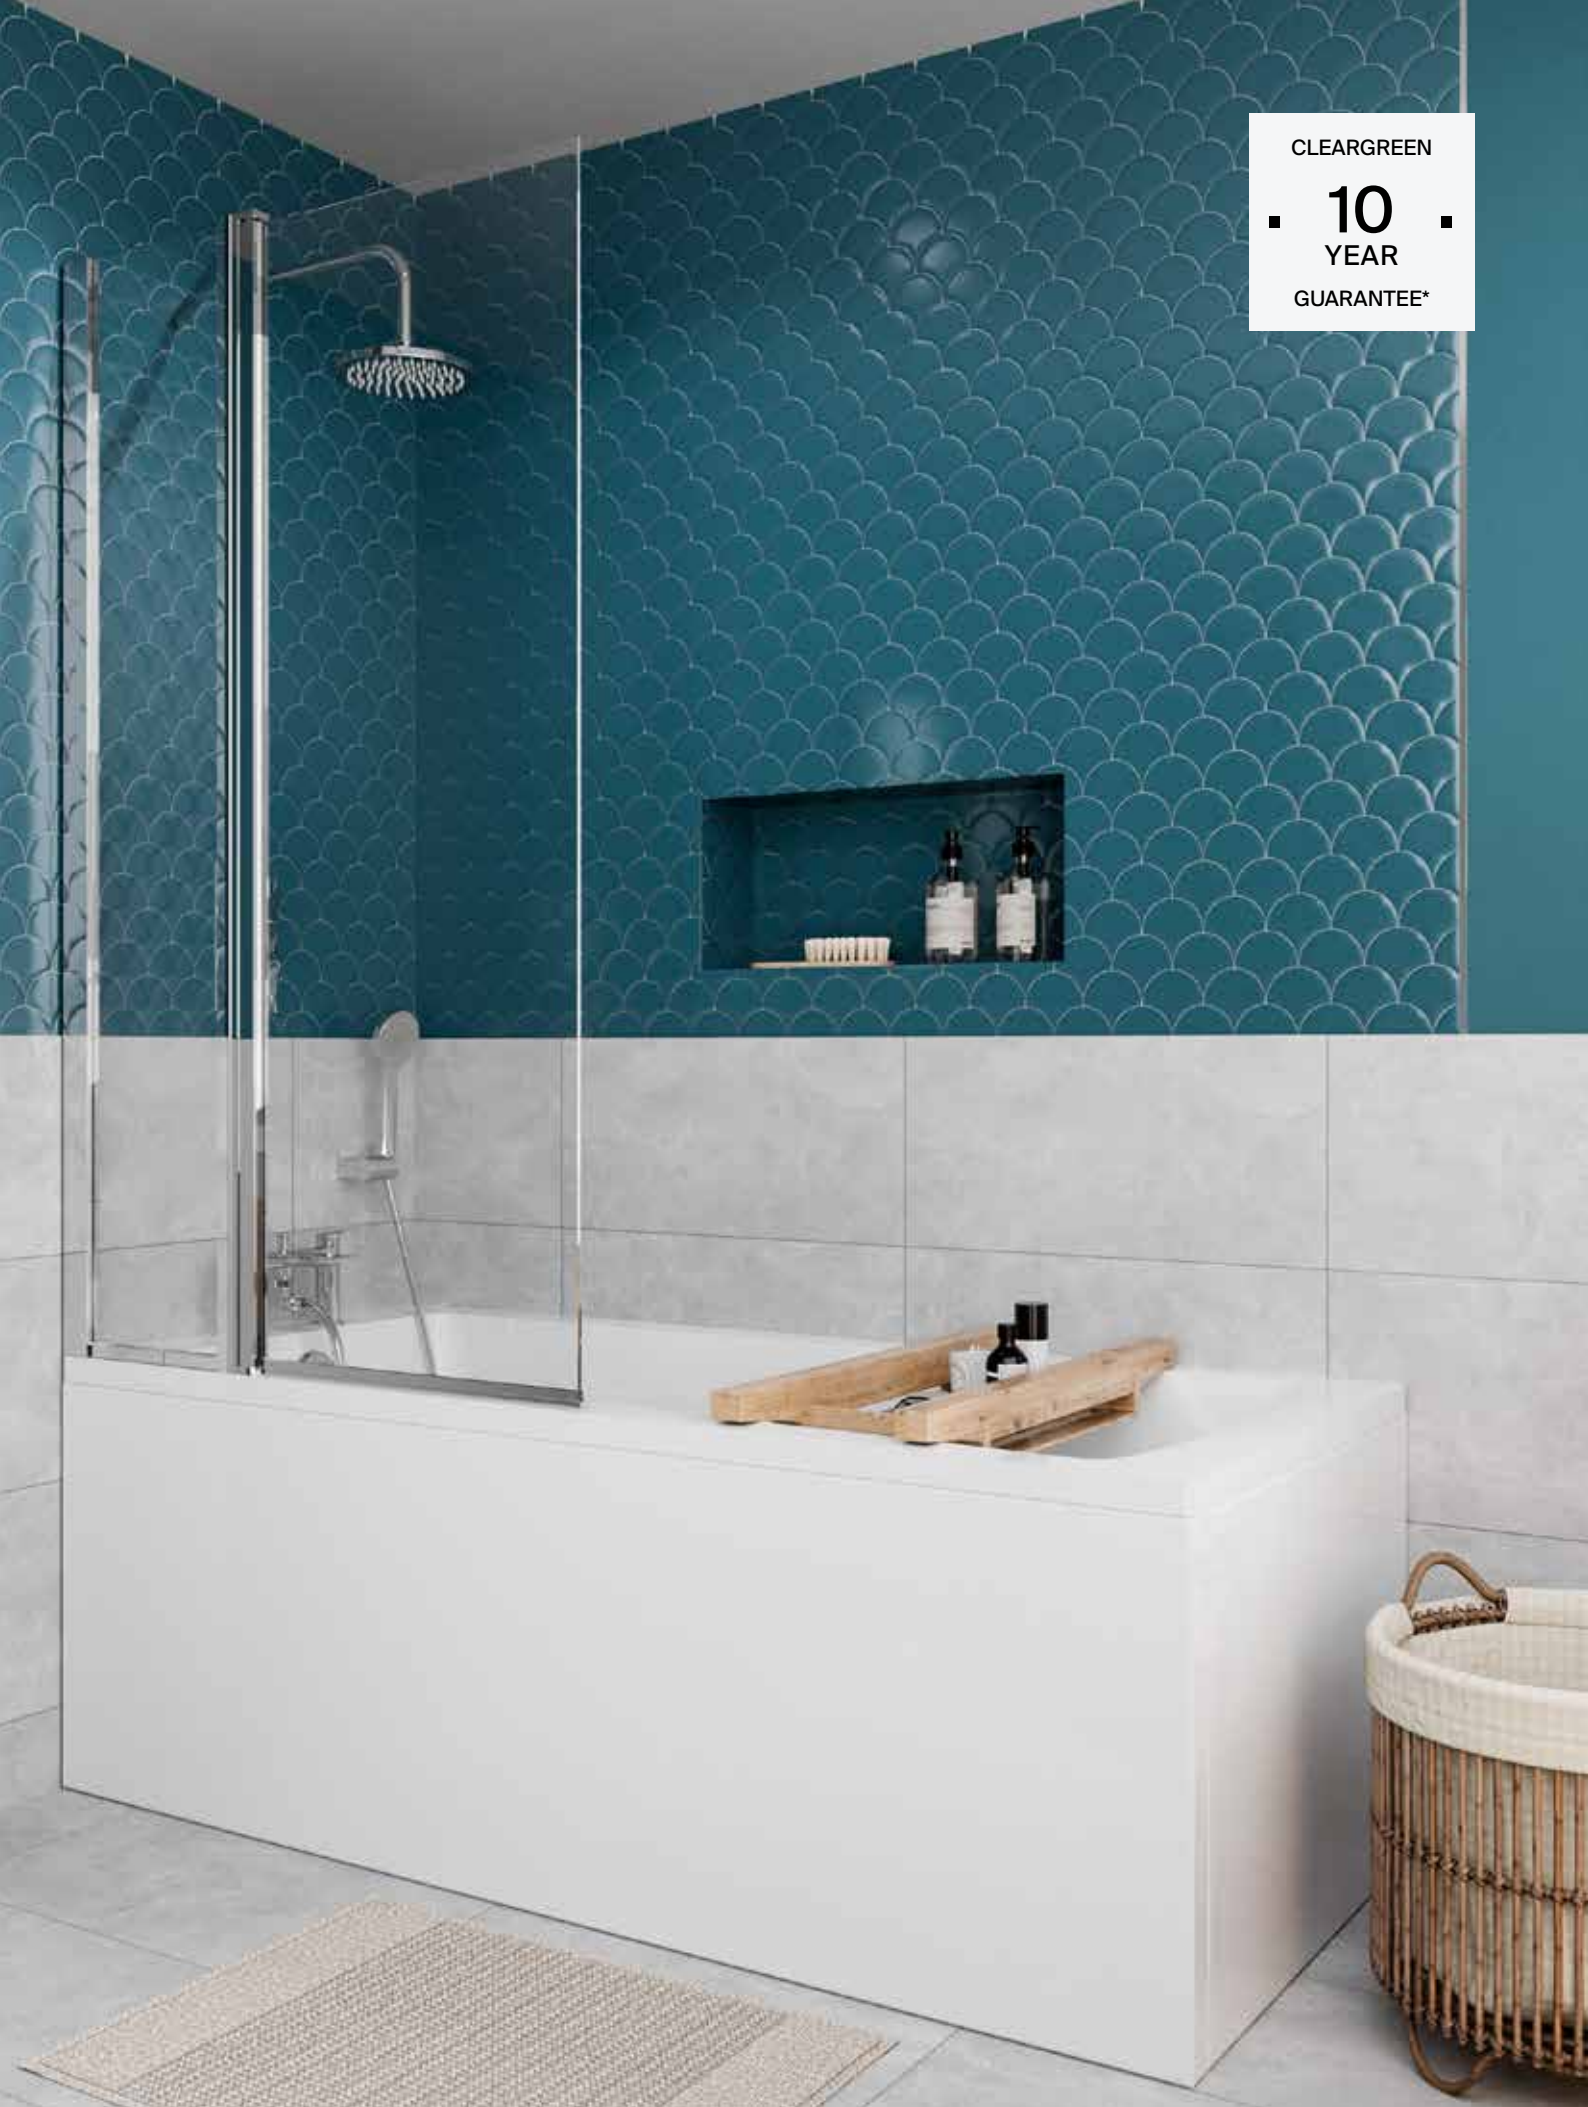

Showering baths are designed to give a bigger space at the tap end to give freedom of movement whilst showering. These are available in right hand and left hand.

Unique baths - The Nouveau freestanding and the Saturn back to wall bath, both designed for those wanting a real showstopper in their bathroom.

Design

We design all our baths to maximise comfort while in use. Our bath rims are designed to be narrower than other producers, to maximise internal space while retaining a smaller footprint.

Zamori shower trays

The Zamori 35mm high shower tray range is the most extensive available, with over 120 models to choose from to fit the space in your bathroom.

Flexible installation

Option 1

Placed flat on the floor

The thin Zamori trays are only 35mm high which gives a modern, minimalist appearance to even the simplest and most cost effective installation method.

Option 2

Sunk into the floor

The low 35mm height allows the tray to be sunk into the floor so that the upper surface is level with the floor. The framed rim still allows good water retention to avoid water escape, especially when combined with the self cleaning Vortex high flow shower waste (which clears up to 30 litres of water per minute).

Option 3

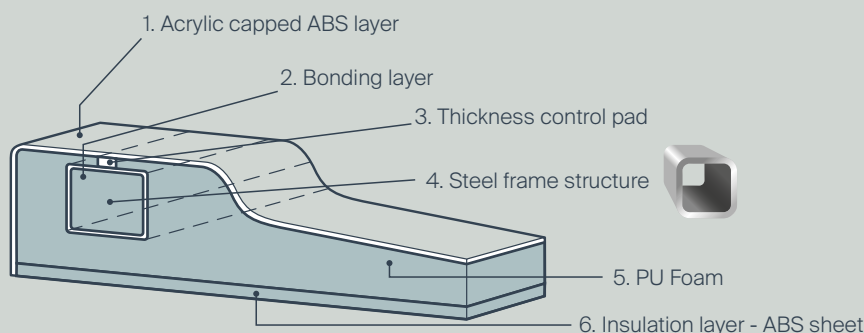

Raised above the floor

Zamori offers optional adjustable legs and panel sets for raising the tray 100mm above the floor. This allows for easy access to any plumbing, and is often the preferred option when retro fitting a new tray into an existing location. The packs include removable acrylic side panels to match the shower tray. These are held in place by magnetic clips to ensure maintenance is easy.

Reinforced trays

All our trays are manufactured from Acrylic sheet and incorporate our patented steel reinforcing frame. This is formed to be the exact shape of each tray and ensures rigidity for a lifetime of use. The trays are flat on the under-surface; this makes installation and levelling very easy.

Anti-bacterial

All Zamori shower trays are impregnated with an anti-bacterial zeomic agent.

One of the amazing qualities of silver is that it has inherent anti-microbial properties - Zamori has added the silver-based anti-bacterial additive Zeomic into the manufacturing process. The anti microbial qualities protect against harmful bacteria and suppresses mould growth.

- 1) The silver ions from Zeomic impregnate the microbe surface and are then absorbed by the cells through active transfer.
- 2) The silver ions react with several metabolic enzymes within the metabolic system of the microbes.
- 3) The activity of these enzymes is hindered and the growth of microbes is inhibited.

GriP
SAFETY COATINGS

SWISS QUALITY

Anti-slip

Zamori anti-slip is simply the finest available.

Our anti-slip trays comply with DIN51097 class C - the highest anti-slip rating.

We are the only manufacturer to thermo bond the Swiss Grip Antislip onto the tray with a curing process - to ensure better performance for a cleaner and longer lasting surface.

DIN51097 class C anti-slip ramp test.

Vortex turbo waste

Our shower waste is a 90mm diameter high flow Vortex Turbo waste designed to fit all our trays. This ensures that the water flows out at up to 30 litres per minute, making the Zamori shower waste one of the most efficient available - suitable for high volume showering applications.

The waste incorporates an easy-clean removable filter to capture any hair or other objects to remove the risk of blocking.

The waste is supplied with a solvent weld adaptor for different waste pipe sizes.
