Baths Collection

Britton brings you a wide range of bath designs, shapes and sizes to suit your bathroom perfectly. There are 47 models across all the designs, all made in one exclusive high-strength Cleargreen format, with the most popular shapes also available in our more affordable Clearline format. For more details on Cleargreen, see page 2.

Quality

All of our baths utilise high quality materials throughout including:

- Only 5mm LUCITE™ acrylic sheet for the bath moulding, a leading material which is naturally slip-resistant.
- Floor-mounted leg fixings which provide a stable base and are adjustable to cope with uneven floors.
- A strong baseboard made of recycled material which is fully encapsulated into the bath.
- All British and European performance standards when installed in line with our instructions.
- A long guarantee of 10 years for Clearline baths and 30 years for Cleargreen baths.

Design

We design all our baths to maximise comfort while in use. Our bath rims are designed to be narrower than other producers, to maximise internal space while retaining a smaller footprint.

Range

We classify our baths into their design styles.

- Single ended baths have the backrest at one end and the taps opposite.
- Double ended baths have a backrest at both ends with the taps in the centre of the long side.
- Showering baths are designed to give a bigger space at the tap end to give freedom of movement whilst showering. These are available in right hand and left hand.
- Unique baths - The Nouveau freestanding and the Saturn back to wall bath, both designed for those wanting a real showstopper in their bathroom.

CLEARGREEN

CLEARLINE

■ 10 ■

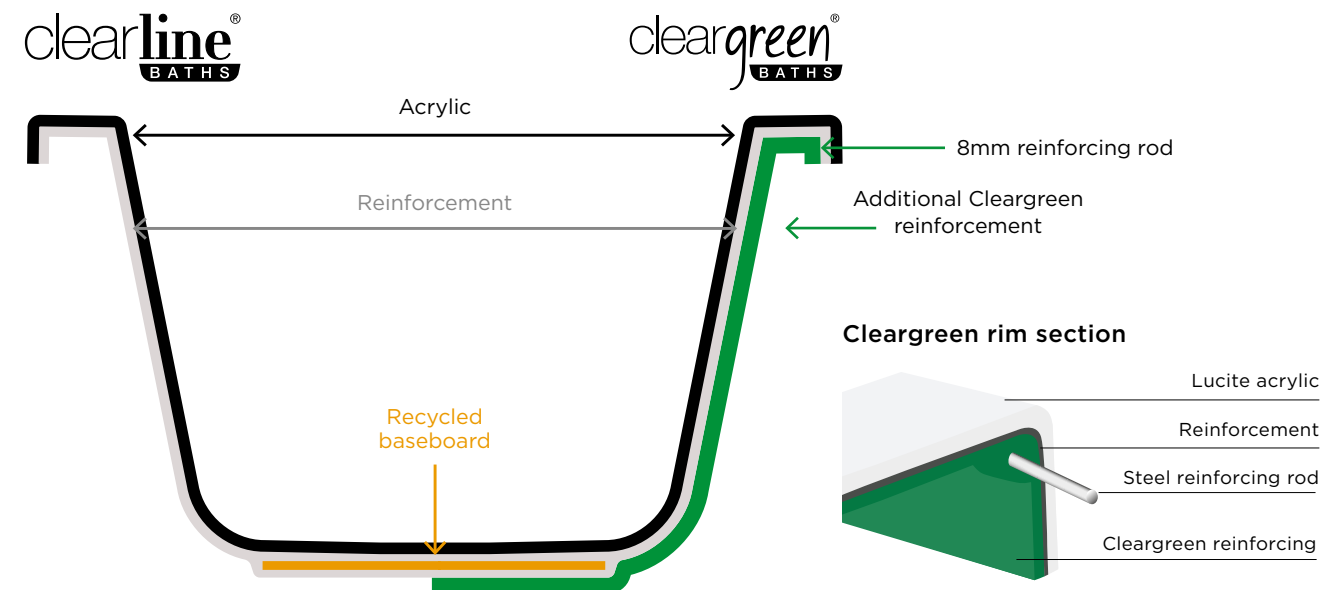

YEARS

GUARANTEE

The most rigid baths available.

Our Cleargreen baths come with the highest strength reinforcement, manufactured to withstand an enormous weight of 2.3 tonnes making them the strongest baths on the market. This high strength is due to an 8mm steel reinforcing rod which runs inside the bath rim and additional reinforcement over the whole of the underside. Our Cleargreen baths also boast environmental benefits, not only utilising recycled materials but adding to the quality of your chosen bath, by retaining heat for up to 30 minutes longer than a standard bath.

Sustain Single-ended

A single-ended bath with a subtle square internal shape for those preferring a more angular look. Available in 5 sizes to suit a variety of bathroom sizes. Some sizes are also available as Clearline.

Shower Screens

We offer a range of 5 shower screens you can add to our single, double-ended or offset baths so you can pair your chosen bath showering sets. Our showering baths are available with uniquely shaped screens to follow their own specific shape. See page 14 for details.

Overflow pre-drilled
Acrylic panels are fully reinforced with GRP
Tap hole option 0, 1, 2 (supplied un-drilled)

Viride Offset

This offset bath is available in either right or left handed options. The soft curves give this bath a contemporary feel and allows the piece to blend into its surroundings. The 1700 size is also available in Clearline.

Optional Panels

Every bath is available with front and end panels for you to configure your desired bath. We only supply high quality reinforced panels which match the quality of the baths, alternatively baths can be tiled in or panelled with a shower proof boarding.
